From the time you told me
Those lovely bedtime stories
To the time you succumbed to
My wishes when I said please
From the time when you took me
To play in the garden
To the time when you said
That I'm one in a million
From the time you placed
And rocked me in your lap
To the time you did things
To reduce our generation gap
At every occasion in life
At every juncture and experience
You have been with me, grandpa
I thank you in abundance...
