Eek! I HATE touching that disgusting lipid! Don't let go!
Me too! I really admire those aminoacids that can interface with both aqueous and lipid layers!
Glycosyl
Gasp Gulp
This 'snorkelling' can be a bit of a strain!
Easy-peasy! Its just comes natural to us.
Hi, Al.
Personally, I prefer it down here!
Hi, Leu.
Lovely hydrocarbon chains.
LIPID BILAYER
Trrrp (croak)
Arg!
Are we inside the cell or outside?
Dunno- just hydrophilic I guess.
I just hope that elephant up there doesn't get nervous!
