The Sounds of B and P

[illegible]

When "voiced" consonant sounds (b, d, g, l, m, n, r, v) and vowel sounds (which can the voice in English), the "e" ends up being voiced - making the /ɪ/ sound.

If the preceding sound is NOT voiced (t, k, p, f) the "e" will make the /ɪ/ sound (without the voice).

6. Intermediate:

Get off shoes come have broke

Get too before store face down
