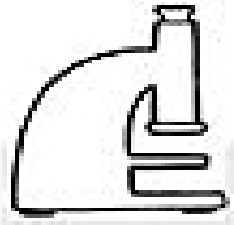
MEASURE THIS

"We need to measure this equipment. You can use my new micron ruler. Each section is equal to one space micron."

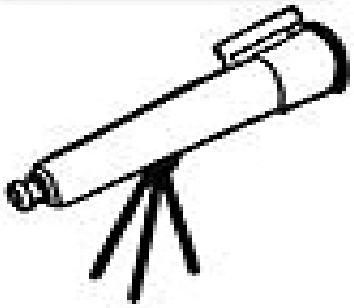
Materials needed: Scissors

Guess how many microns long each piece of equipment is. Write your guess. Cut out Spot's special ruler at the bottom of the page. Measure the equipment. Write the correct measurement. Was your estimate close?

My Guess	My Measure
____	____



My Guess	My Measure
____	____



Draw a rocket ship 8 microns long.
