

Making a Bible Story Chart

The Bible Story Chart will help children understand Bible history by experiencing it visually and actively. A simple method for making a basic story chart is described below. It is designed for use within the smaller pictures and labels provided. The measurements may need to be larger if you desire to use larger pictures.

Materials

- Eight sheets of 9" x 12" purple construction paper
- Two sheets of 9" x 12" yellow construction paper
- Rubber cement or craft glue
- Pictures provided on the following pages or collected to illustrate the stories studied in the classroom or Sabbath School
- Clear contact paper or laminating film

Directions

1. Glue the purple paper together end to end to make a long, narrow length of paper, as illustrated on the following page. The six sheets represent the 6,000 years of Biblical history. The dark color represents the earth suffering from evil and sin.
2. Next, glue one sheet of yellow paper to each end of the purple paper. Yellow represents the time of joy and happiness before sin entered, and the time when Jesus comes again to destroy sin and take us to heaven. Cut the yellow sheets in a wavy line. This shows that time continues forever in both directions.
3. Copy the smaller pictures, labels and stories provided. Color them, cut them out, and mount them on heavier paper.
4. The chart may now be hung on the wall or used in presenting or practicing the story. The story chart and its parts may be laminated or covered with clear contact paper to allow children to manipulate it freely without fear of damage.
5. The children may create their own smaller charts in this way. They may use smaller dimensions. The diagram on the next page shows how the stories for each year fit together on the story chart to make a whole.
6. Large pictures are located in the appendix section at the end of the manual.
