1. **Doctor:** Are you fully ..... ? You know, up to date with all your injections?
   Patient: Oh yes. I've had all the vaccinations for ..... time travelling and ..... and .....

2. **Doctor:** What seems to be the .....?
   Patient: I think I'm ..... at work. I mean, it doesn't happen every day but the last morning I had a terrible ..... all over my legs and arms, lots of tiny red spots, and they are ..... too!

3. **Doctor:** So how long have you had this .....?
   Patient: Well, my back has been hurting now and then since I had the car accident, when my head was thrown forwards and backwards by the impact. And my neck's hurting too. I think it might have been a .....

4. **Doctor:** And how about .....? Lately, have you been eating well?
   Patient: Oh yes, I'm now a pretty ..... chap really. You know, lots of fruit, and ..... as well as bread and many products, so I get plenty of ..... and minerals and ..... and carbohydrates too.

5. **Patient:** Am I all in .....? Does anything happen always from other people?
   Doctor: No, definitely not. This ..... period for this disease is very short. You cannot infect others now and you don't have this anymore.

6. **Doctor:** How long have you been feeling .....?
   Patient: Probably about three or four weeks now. I got a bad cold that I simply couldn't ..... It was just like I'm dizzy all the time, I felt very ..... and couldn't get back to normal again and I would feel very ..... the next day.
