treasure hunt

Read the story of the Red Pirates and mark the route on the map. Can you find the buried treasure? Mark the place with a cross (X).

The Red Pirates landed on the south-west coast of the Island of Gems. They headed along the river bank and turned right at the Crystal Lake. They headed east towards the Rocky Mountains. When they got there, they turned left. They went straight ahead until they reached the Golden Lake. They wanted to bury the treasure there but Captain Hook didn't agree. There they turned right. They went through the Pale Forest. They couldn't find a place to bury the treasure, so they got out of the forest and turned left again. They went straight ahead towards the Silver Lake. They went past the White Forest. They stopped when they got to the hill. They climbed up the hill and found a cave on the other side of the hill. It was the perfect place to bury their treasure.
