Count by 7's Poem

7, 14, 21
In 3rd grade you learn a ton.

28, 35, 42
Count by 7's is what we do.

49, 56, 63
Count by 7's is so easy.

7 times 10 is our decade fact
70 is where it's at.

7 times 11 and we're almost done
Count by 7's is so much fun!

84 and just one more
Learning math helps you explore.

91 is not a prime
(Insert school name) count by 7's next time!
