COMPREHENSIVE TIME COMPLEXITY OPTIMIZATION

1) The concept of the Hello World book is what makes it stand out. Rather than _____ the language by introducing readers
(a) alternatives (b) programs (c) expressions (d) complexity (e) a bit more
2) When you have your production Hello World ready, it is a recommendation _____ to Rubyists.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
3) Knowing the underlying mechanics of memory allocation in Ruby, it becomes clear that _____ in a loop can lead to significant performance issues.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
4) As stated in _____ [illegible] Hello World book, [illegible] the language's syntax.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
5) "The staff against smoking was in _____ that it will take years to change the attitude."
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
6) [illegible] _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
7) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
8) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
9) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
10) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
11) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
12) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
13) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
14) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
15) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
16) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
17) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
18) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
19) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
20) _____ [illegible] Hello World book, [illegible] the language's syntax, [illegible] the developer from [illegible] and focus on solving problems.
(a) [illegible] (b) [illegible] (c) [illegible] (d) [illegible] (e) [illegible]
