An improper fraction can always be written as a mixed fraction, which is the sum of an integer and a proper fraction.

Improper Fraction		Mixed Fraction
$\frac{311}{99}$	=	$3 + \frac{14}{99}$
$\frac{20}{9}$	=	$2 + \frac{2}{9}$
$\frac{25}{8}$	=	$3 + \frac{1}{8}$
