Christmas Math Fun

Instructions: Read each story problem carefully. Solve the math equations and write your answers in the blanks provided.

1. Present Counting (Addition within 10)

Problem: Santa placed 4 red presents under the tree.

Then, he added 5 green presents.

How many presents are under the tree in total?

Math Equation: 4 + 5 = ___

2. Reindeer Snacks (Subtraction within 10)

Problem: Rudolph had 8 carrots. He ate 3 carrots to get energy for flying.

How many carrots does Rudolph have left?

Math Equation: 8 - 3 = ___

3. Snowflake Challenge (Addition up to 15)

Problem: Frosty the Snowman caught 7 snowflakes on his hat and 6 snowflakes on his mitten.

How many snowflakes did Frosty catch altogether?

Math Equation: 7 + 6 = ___

4. Stocking Surprise (Making 10)

Problem: Eliana has 6 candy canes in her Christmas stocking.

She wants to have 10 candy canes in total.

How many more candy canes does she need?

Math Equation: 6 + ___ = 10
