## Resource Roundup

Use the map and key to identify which natural resources can be found in each region of the United States. Then choose a region. Write a different resource from this region on each of the blanks provided. Then write two products that could be made from it.

Natural Resource Key

beef cattle	fruits	oranges	sheep
coal	grain	peanuts	steel
copper	logs	pineapples	soybeans
corn	iron ore	potatoes	sugarcane
cotton	natural gas	poultry	vegetables
dairy cattle	oil	rice	water
forests	seafood	wheat
