

Area, Perimeter Word Puzzle

Activity

Goal: This activity is designed to reinforce the understanding of the perimeter and area of different shapes

Grade: 6-7-8

CA Standards: Students deepen their understanding of the measurement of plane and solid shapes and use this understanding to solve problems (1.1)

Objectives: The student will be able to:

- give formulas for the areas and perimeters of different shapes
- calculate area, perimeter of different shapes

Resources/materials needed: worksheets (provided), pencil

Plan:

This activity can be used as a warm-up or as a closing activity summarizing the concepts.

The students can work in small groups, or individually.

They should read the each question and answer to them. After they completed the first worksheet, they can copy their answers into the empty cells of the puzzle table, and read the clue in the vertical column.
