CCSS 2.NBT.5 Fluently add and subtract within 100 using strategies based on place value, properties of operations, and/or the relationship between addition

## Addition Within 100

Directions: Find the sums by decomposing and composing numbers into tens.

Example:

$$57 + 25 = \underline{\quad}$$

*Take 3 from 25 and add to 57 to make 60.*

$$57 + 25$$

$$57 + (3 + 22)$$

$$(57 + 3) + 22$$

$$60 + 22$$

*Take the 20 from 22 and add to the 60.*

$$60 + 22$$

$$60 + (20 + 2)$$

$$(60 + 20) + 2$$

$$80 + 2 = 82$$

\_\_\_\_ I double checked my work.
