

Here are some problems with words. They are not difficult, but you should work them out in your head as quickly as you can and then write down how you did them.

For example: Subtract 28 from 68.

I could take away 20 first to get 48 and then take away 8 to get 40.

I could subtract 30 and then add 2 back on.

I could subtract 28 from 68 and then subtract 3.

1. What is 87 take away 9 ?

I did this by:

2. Subtract 7 from 45.

I did this by:

3. Take 12 from 38.

I did this by:

4. What is 53 less 17 ?

I did this by:

5. What is 234 subtract 135 ?

I did this by:

6. Subtract 89 from 96

I did this by:
