

Reading Comprehension

There are some longer problems with lots of words. You need to work out what they are asking you to do.

Read them very carefully to see what you need to do.

Your teacher or parent will check you have read just what you need.

1. Milk comes in two bottles: long and four bottles wide. How many bottles are there of these two bottles?
2. The chocolate are put into 12 similar boxes. How many chocolates will come of the boxes total?
