

Science Fair Project

FOOD Conservation

- 1) How can we classify the food we eat? Give your classification.
- 2) Let's classify the kinds of food in the corresponding column. Then, illustrate them.

Lemonade - cheese - apples - fish - oranges - juice - butter - vegetables - soups - milk - yogurt - carrots - ice cream - tea - pizza - hamburgers - biscuits - milk - cornflakes - tomatoes - water - fish - wheat - peas - beans - cream - water - bread - butter - grapes - beer - chicken - macaroni - rice - fish.

Meat	Vegetables	Fruits	Dishes	Dairy products	Others

- 3) Where does food come from? In which column (or) the correct option.

Food type	Origin or state of matter	
Vegetables	solid	plants
Fruits	solid	plants
Bread	solid	plants
Butter	solid	liquid
Beans	solid	plants
Dairy products	solid/liquid	plant/animal
