

## Spring Flower

**Skills: Scallops, Fringe, Ziggags, Lines and Curves**

- Cut flower patterns from construction paper.
- Cut between the flower petals. Make sure you stop at the dots!
- Paste the center to the middle of the flower.
- Assemble the flower patterns onto a larger sheet of construction paper and bend the petals forward. Glue the flower in place and display them on the class board.

This simple craft project can make a cute Mother's Day card.
