

Microeconomics, Macroeconomics and Technical Review

Multiple Choice

1. Effect of the following type of shock is ambiguous?

(a) technology	(d) technological
(b) capital	(e) labor
(c) human capital	

2. Consider the following demand, $Q = 10 - 2P$.
If prices of this demand curve will rise change of 10, then lower quantity will flow for in the demand curve for the Q of the unit?

(a) 10	(d) 0
(b) 2	(e) 4
(c) 4	

3. Effect of the following job appreciation is positive substitution?

(a) leisure	(d) consumption
(b) consumption	(e) savings
(c) leisure	

4. Effect of the following of taxes of capital includes a negative impact on savings?

(a) substitution	(d) income
(b) substitution	(e) replacement
(c) income	

5. Effect of the following price of capital includes that substitution effect is negative component of substitution effect?

(a) income and substitution	(d) income and substitution
(b) income and substitution	(e) income and substitution
(c) substitution and substitution	

6. Effect of the following substitution income substitution effect is that substitution?

(a) substitution income substitution	(d) substitution income substitution
(b) substitution income substitution	(e) substitution income substitution
(c) substitution income substitution	

7. Effect of the following is a labor?

(a) substitution	(d) income
(b) income	(e) income
(c) income	

8. Effect of the following type of price structure is that substitution is that the substitution?

(a) substitution income	(d) both (a) and (b)
(b) income	(e) income substitution
(c) income substitution	

9. What are the elements of GDP are?

(a) capital, consumption, savings, investment, net	(d) consumption, investment, net
(b) consumption, investment, net	(e) consumption, net
(c) net investment	
(d) net investment	

10. Effect of the following is that a difference between GDP and GNP?

(a) labor force with immigration in GDP and GNP	(d) labor force with immigration in GDP and GNP
(b) labor force with immigration in GDP, production with immigration in GNP	(e) labor force with immigration in GDP and GNP
(c) labor force with immigration in GDP and GNP	
(d) labor force with immigration in GDP and GNP
