

English class: Listening and speaking
Student-teacher: Ginger Ulate
Group: 8-8
Unit 5: Super Volcanoes
Date: _____

SUPER VOLCANOES

Objective: Students will understand the following:

1. The importance of maintaining volcanoes on Costa Rica.
2. The use of -if conditional and will, referring to predictions over volcano eruptions.
3. The importance of planning an emergency plan in case of a volcano eruption close to towns or cities.

Theme: Each group of students will be famous volcanologists from CIVICOSI and the president of Costa Rica want them to present her a report about what it would happen if one of our Costa Rica's volcanoes erupt. You need to choose one of the volcanoes from the list and use the internet to make this work searching for different characteristics of the chosen volcano. Some of the characteristics you must look for are:

- Close population to the volcano. (Cities, towns)
- Height of the volcano.
- Previous eruptions.
- Location of the volcano.
- Emergency plan.
- How it will affect the environment; etc.

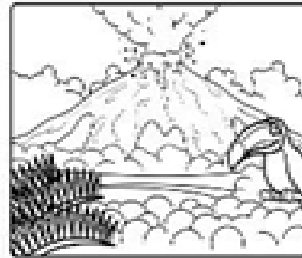

Students need to make use of the -if conditional to make this exercise as also make use of the vocabulary of unit 5B. This work must be presented as a presentation to the class.

List of volcanoes:

- Arenal Volcano
- Irazú Volcano
- Poás Volcano
- Rincón de la Vieja Volcano
- Miravalles Volcano
- Tenorio Volcano
- Barva Volcano
- _____

Some of the web pages, students can use are:
