

**SAFETY INFORMATION - PERSONAL PROTECTIVE EQUIPMENT - Protective Goggles**

Always consult the product label for PPE (PPE stands for Personal Protective Equipment) information. Use PPE to protect yourself from PPE hazard. PPE is the last line of defense for protection of your eyes and face when using pesticides. PPE is required for all pesticide applications, including aerial applications, and for all pesticide applications, including aerial applications.

- (PPE) - Always wear eye protection (PPE) when using pesticides. Use eye protection (PPE) when using pesticides.
- (PPE) - Always wear eye protection (PPE) when using pesticides. Use eye protection (PPE) when using pesticides.
- (PPE) - Always wear eye protection (PPE) when using pesticides. Use eye protection (PPE) when using pesticides.

Remember, if you are using a PPE (PPE stands for Personal Protective Equipment) to protect yourself from PPE hazard, use PPE (PPE stands for Personal Protective Equipment) to protect yourself from PPE hazard. Use PPE (PPE stands for Personal Protective Equipment) to protect yourself from PPE hazard.

When you finish the work, always wash your hands thoroughly with soap and water. Do not eat, drink, or smoke while using pesticides. Do not use pesticides near children or pets. Do not use pesticides near water. Do not use pesticides near fire. Do not use pesticides near electrical equipment. Do not use pesticides near power lines. Do not use pesticides near roads. Do not use pesticides near buildings. Do not use pesticides near crops. Do not use pesticides near animals. Do not use pesticides near people. Do not use pesticides near food. Do not use pesticides near medicine. Do not use pesticides near children. Do not use pesticides near pregnant women. Do not use pesticides near nursing mothers. Do not use pesticides near infants. Do not use pesticides near the elderly. Do not use pesticides near people with chronic diseases. Do not use pesticides near people with allergies. Do not use pesticides near people with asthma. Do not use pesticides near people with heart disease. Do not use pesticides near people with high blood pressure. Do not use pesticides near people with diabetes. Do not use pesticides near people with kidney disease. Do not use pesticides near people with liver disease. Do not use pesticides near people with lung disease. Do not use pesticides near people with skin disease. Do not use pesticides near people with eye disease. Do not use pesticides near people with hearing loss. Do not use pesticides near people with vision loss. Do not use pesticides near people with mental illness. Do not use pesticides near people with physical disabilities. Do not use pesticides near people with chronic conditions. Do not use pesticides near people with acute conditions. Do not use pesticides near people with any condition. Do not use pesticides near people with any health issue. Do not use pesticides near people with any medical problem. Do not use pesticides near people with any health concern. Do not use pesticides near people with any health risk. Do not use pesticides near people with any health threat. Do not use pesticides near people with any health danger. Do not use pesticides near people with any health hazard. Do not use pesticides near people with any health risk factor. Do not use pesticides near people with any health risk factor.

**CHARACTERISTICS OF PESTICIDES**
