

## Websites for teachers

<http://www.nytimes.com/learning/teachers/lessons/archive.html>

The archive contains hundreds of free lesson plans for grades 6-12. You may perform a keyword search to retrieve a lesson, browse the archive by subject, or scroll down the page to view the most [recently published lessons](#).

<http://practicalmoneyskills.com> This site is great for teaching economics, kindergarten through grade 12 and even beyond! There are lesson plans for various age/grade levels, and you can even order some materials to be sent to you, such as a CD ROM and a curriculum kit with worksheets and all. This could serve as a useful tool in meeting some of those additional life skills requirements for high schoolers.

<http://www.kn.pacbell.com/wired/bluewebn/index.html>

Blue Web'n is an online library of 1700+ outstanding Internet sites categorized by subject, grade level, and format (lessons, activities, projects, resources, references, & tools). You can search by grade level ([Refined Search](#)), broad subject area ([Content Areas](#)), or specific sub-categories ([Subject Area](#)). Each week 5 new sites are added.

[www.ezschool.com/EZSheets.html](http://www.ezschool.com/EZSheets.html)

This site has a limited selection of worksheets clearly marked by grade level and matched to State standards that could be printed to get a family with elementary aged students started with something while waiting for curriculum to arrive. It also has suggestions for texts and workbooks with links to Borders Books and other vendors.

[www.lessonplanspage.com](http://www.lessonplanspage.com)

This site has math worksheets that can be printed in a variety of elementary grade levels, and also includes the ability to custom build math worksheets by setting parameters for problems and/or answers.

[www.edhelper.com](http://www.edhelper.com)

This site has spelling and vocabulary worksheets, as well as grammar, math, solar system, weather, and plants. It also has short reading excerpt similar to the kinds found on the STAR test that print along with comprehension questions. Neatly divided by grade level for K-6.

[www.school.discovery.com](http://www.school.discovery.com)

Site links and puzzles that can be used with the Discovery Channel, TLC, and Animal Planet programs or as stand alone pages.

[www.superkids.com](http://www.superkids.com)

Software reviews, math and vocabulary worksheets, vocabulary builders using hangman, word scrambles, and hidden words.
