Task 3 – After watching

Discuss the film with your classmates and answer the following questions.

How does global warming affect the environment?

What are the biggest challenges we face today?

What is your opinion on the film's message?

I watched a movie about global warming. The main idea is that we need to take action now. The film shows how global warming is affecting the world. It shows how the temperature is rising and how the sea levels are rising. It also shows how the weather is getting more extreme. The film is very informative and it makes you think about the future. I think we should all do our part to help the environment. We can do things like recycling, saving water, and using less energy. We can also talk to our friends and family about global warming. It's important that we all work together to make a difference. The film is a good reminder that we need to take action now before it's too late. I think we should all watch the film and think about what we can do to help the planet. Global warming is a real problem and we need to do something about it. The film is a great way to learn more about the problem and what we can do to help. I think we should all watch the film and talk about it with our friends and family. We need to make a difference and the film is a great way to do that. Global warming is a real problem and we need to do something about it.
