

LESSON PLANNING

A LESSON PLAN ON LISTENING SKILLS

Level: To teach Secondary level students approximately 2 hrs of English per week.

Topic: Listening skills especially Global Listening.

Aims: The main objectives of this lesson plan are:

- To develop the global listening abilities of the students,
- To teach them a few basic listening strategies,
- To remove the flaws the students might be facing in global listening, and
- To expose them to a number of different listening situations through activities.

Time: 40 minutes approximately.

Aids: Charts, laptop with speakers, audio recordings, handouts, video clips, white board.

Anticipated Problems: students might be confused about how to carry on with global listening or the listening for gist and how to differentiate it from the other types of listening. However, the other main types of listening will be the focus of our next lesson, and the students' mistakes related to these topics will not be corrected by us at present.

Procedure: The overall procedure of the lesson is constituted by four major Ps, each of which has its own purpose during the lesson. They will be discussed in the following discourse.

❖ Preparation or Warm up:

- Paste the charts on the whiteboard and write down the topic of our lesson.
