## PHYSICAL PROPERTIES OF MATTER

Fill in the blank using the word bank below. You will use answers more than once!

Matter	Magnetism	Volume	Mass	Reflectivity
States of matter	Physical property	Conductivity	Temperature	Solubility

1. .... anything that has mass or takes up space
2. .... describes how energy, such as electricity or heat, can move through.
3. .... the amount of space something takes up.
4. .... whether something is attracted to a magnet.
5. .... measured using a thermometer.
6. .... measured in grams.
7. .... is the way light reflects, or bounces off an object.
8. .... a property of matter that can be measured or observed using the 5 senses.
9. .... is the ability of matter to dissolve in a liquid.
10. .... measured using a graduated cylinder.
11. .... whether something is a solid, liquid, or gas.
12. .... how much matter is in something.
13. .... how hot or cold something is.
14. .... measured in degrees Celsius.
15. .... measured in liters (or milliliters)
16. Name a physical property of matter not listed above: .....
