

Name _____

Regular polygons

Under Construction

Harry Hexagon is building a wall using all types of polygons. He's really behind and needs your help. Harry needs to color all the regular polygons using the color code at the right. Help Harry locate and color each regular polygon in the wall below. Remember that a regular polygon is a polygon with all sides the same length and all angles the same measure.

Regular Polygons	
triangle	= yellow
square	= green
pentagon	= blue
hexagon	= orange
octagon	= red
decagon	= purple
