

Weathering, Erosion & Deposition Study Guide

Name: _____

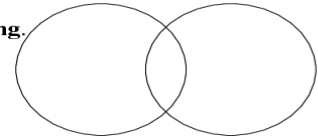

Quiz Date: _____

STUDY TOOLS

1. Rocks & Weathering Notes
2. Weathering Foldable
3. Erosion & Deposition Notes
4. "Rocks Change" Graphic Organizer

1. Define **weathering**.

2. Use the Venn Diagram to compare & contrast the **two types of weathering**.

3. List & describe **5 examples of mechanical weathering**.

4. List & describe **5 examples of chemical weathering**.

5. The **rate of weathering** depends on _____ and _____.

6. What does **permeable** mean?

7. What are the **2 ways** that **climate** affects the rate of weathering?

8. What is **soil conservation**? Why is it **important**?

9. Explain how the **Dust Bowl** changed the way that farmers treated their land.

10. Define **erosion**.

11. The **most major agent of erosion** is _____.

12. What are the **4 causes of erosion**?

13. Define and give **4 examples of mass movement**.

14. Define and give an example of **deposition**.
