

***Originate successful design solutions to fundamental architectural problems by integrating concepts, formal/visual principles and techniques.***

Inadequate	Developing	Adequate	Accomplished	Mastery
Does not attempt or is unable to complete design solutions.	Unsuccessful design solution due to lack of creative use of concept, limited exploration of technique and/or application of principles. Little effort to challenge creative boundaries resulting in obvious or poorly developed solution.	Fundamentally sound design solution with moderately creative use of concept, fundamentally appropriate technique, and adequate application of principles. Solution shows some effort to challenge creative boundaries with limited or uneven success.	Interesting design solution showing consistently creative development of concept, original development of technique and original application of principles. Solution shows ongoing creative inquiry and exploration of design potential with largely effective results.	Compelling design solution showing highly original creative development of concept, innovative application of techniques and exemplary use of principles. Solution shows rigorous creative inquiry and investigation throughout design process with highly successful results.

***Demonstrate fundamental understanding and application of architectural formal + spatial principles as they relate to human experience.***

Inadequate	Developing	Adequate	Accomplished	Mastery
Does not attempt or is unable to complete design solutions.	Limited understanding of experiential quality of architectural form and space resulting in largely unsuccessful architectural solutions. Significant problems with scale, materiality, sequence, circulation, enclosure or visual perception.	Basic functional understanding of experiential quality of architectural form and space resulting in fundamentally sound architectural solutions. Moderate problems with scale, materiality, sequence, circulation, enclosure and or visual perception.	Clear understanding of experiential quality of architectural form and space resulting in successful architectural solutions. Minor problems with scale, materiality, sequence, circulation, enclosure and or visual perception.	Advanced understanding of experiential quality of architectural form and space resulting in exemplary architectural solutions. Effective use of scale, materiality, sequence, circulation, enclosure and visual perception.
