

# Space Math Worksheet

## Space Alien Subtraction

Name \_\_\_\_\_

A cartoon space alien with large eyes and a wide mouth is holding a large whiteboard. On the whiteboard, there are three subtraction problems using stars. The first problem shows three solid black stars minus one hollow white star equals two solid black stars. The second problem shows seven solid black stars minus two hollow white stars equals five solid black stars. The third problem shows ten solid black stars minus four hollow white stars equals six solid black stars.

3 stars - 1 star = 2 stars

7 stars - 2 stars = 5 stars

10 stars - 4 stars = 6 stars
