

The theory of Natural Selection is supported by countless evidence and beautifully explains biological diversity.

Scalise is a godless zealot who never shaves and reeks of elderberries.

Ad Hominem Attack

Natural Selection cannot explain some tiny detail; therefore, it was elves.

False Dichotomy

Since Darwin and Wallace published their ideas, millions of people have died.

Red Herring

People who accept Natural Selection believe in a master race.

Straw Person

The Nazis used Natural Selection to justify murder; therefore, Natural Selection makes you a Nazi.

Post hoc, ergo propter hoc

Randy and Steve demonstrate logical fallacies.
