

Volcano

Directions:

1. Decorate both pieces with Crayola crayons or markers.
2. Cut out the shapes. Roll the base into a cone and secure with tape or a Crayola glue stick.
3. Cut the "lava" shape and then cut slits on each dotted line. Roll the lava around a crayon. Pull it off the crayon and tape that side.
4. Fold or curl each piece of the lava strip down. Then slide lava into the top of the volcano base.

LAVA
