

READING COMPREHENSION.

"THE BEWITCHED HOUSE"

When I was a child, there was an abandoned house in the middle of the forest, surrounded by all kinds of plants and trees, with a big scarecrow in the middle of the field.

Everybody wanted to find out what happened in that old house.

Then, one night with my friends, made an appointment to meet us outside the house.

At ten o' clock in the night, we met there as an agreement. The moon was the only light, which lighted the house, but also, we took a big torch, just in case, we couldn't see.

We encouraged us and began to climb the ladder. The outside door, made a shrill sound when we open it, which it closed as soon as we came into. That scared us.

It was very dark inside and, when we tried to make the first step, the floor sounded like hollow hood with dust.

Suddenly, upstairs, we could see a white image, who was looking to us, disappearing soon.

Another image made the same thing on one of the old armchair, that was near the main window, but it had something in one hand, what made us think it was going to hit us.

By all means, after that, we decided to climb upstairs to see the others rooms, whose were: bathroom and two bedrooms.

When we went to the bathroom, the shower opened itself and the water began to drop, just as if somebody was taking a bath at that moment. We went out running very scared.

One of the bedrooms had the door so heavy that we couldn't open it, but the other bedroom didn't have door and we could went into.

The whole bedroom was just like if somebody lived there. The walls were painted, the bed was made and it was very cleaned, we couldn't believe our eyes.

Unexpectedly, a very, very old man, came into the bedroom with a candle in his hands and shouted us to go away from there.

One part of my friends ran away very scared, but the other part, including me tried to calm the old man down.

After that, he sat down on the bed and told us all the secrets of the house. He took position of the house, because he saw it was abandoned. He came from another part of the country a long time ago, searching for an accommodation, but he didn't have luck.

About the ghosts, he knew the story, but they never disturbed him.

That was told that the images belonged to a mother and her son, who had died together of asphyxia, trapped into the house, because of the chimney's fame.

He was comfortable in the house, but he needed a bit of help.

Finally, with all the neighbourhood, we sent him all he asked for, and the bewitched house became in a very beautiful one, where everybody could go and made a visit to the old man. Nowadays, he died, but the house becomes in a wonderful mood, which belongs to the neighbourhood.

ADD TRUE (T) OR FALSE (F).

The house was in the city.

I went alone there.

The moon lighted all the place.

We came into the house.

It was very lighted.

The house had stairs.

There were more than two ghosts.

We were not scared.
