

Name _____

Estimating products and quotients, comparing

Let's Play Pinball!

Complete this pinball game by filling in each bumper with $<$ (less than) or $>$ (greater than). Do **not** work the problems. Instead, round the numbers in each problem; then compute the product or quotient mentally.

67 > 8 (L) 10

17 < 8 (L) 100

68 > 8 (L) 500

78 > 11 (L) 500

22 < 18 (L) 300

97 < 24 (L) 5

276 > 88 (L) 5

6.5 < 9.3 (L) 50

281.7 < 3 (L) 80

17.23 > 0.8 (L) 20

58.77 < 0.9 (L) 50

683 > 3 (L) 1,000

28.5 < 9 (L) 300

205 < 5 (L) 1,000

388 > 23 (L) 8,000

13.4 < 9.3 (L) 150

44.7 < 8.29 (L) 200

621 > 78 (L) 4,000

1.83 < 2.78 (L) 10

Bonus Box: Use a calculator to find the exact answer of each problem. Round any decimal answers to the nearest hundredth. Write your answers on the back of this page.
