Directions for reading the work:

1. Are there any specific instructions for reading, watching, and/or listening to the video and reading the article provided by the instructor?
2. What are your **learning objectives** for this assignment?
3. What is the **purpose** of the assignment and the video?
4. Do you need additional resources or support for this assignment?

After watching the video for the assignment, write a paragraph answering each of these questions:

1. How does your most meaningful goal differ?
2. What do you think the video is for? Change it to fit the purpose?

Research contributions to the computer science field:

1. What are the main points of the video?
 - a. What is the main point?
 - b. How does the video help you understand the main point?
 - c. Do you have any questions about the video?
 - d. What is the main point of the video?
2. What is the main point of the video?
3. Are there any questions?
4. What are the main points of the video?
 - a. What is the main point?
 - b. How does the video help you understand the main point?
 - c. Do you have any questions about the video?
 - d. What is the main point of the video?
