

A map legend is a tool used to describe all of the symbols used on a map.

Directions: Use a real map to understand how a legend is used. You can use a road map, political map, park map, city map, or any other kind of map that has a legend.

The map I am using is a map of

Draw 6 different map symbols. Using the legend, write what these symbols stand for.

Directions: Look at different maps: towns, cities, states, countries, parks. Are the legends different in any way? If so, how?
