Module level 1 – After Year 1

Thoughts on smoking

- Martha, who has never used medical cannabis, discussed with me how she found it helpful in teaching and talking with groups of other girls before school every day. She said she is the girl who is not afraid to speak in front of the class in front of her friends.
- 1.1 Martha, who has never used medical cannabis, discussed with me how she found it helpful in teaching and talking with groups of other girls before school every day. She said she is the girl who is not afraid to speak in front of her friends.
- 1.2 Like Martha, young people discuss some issues that they are interested in. They are usually given time to discuss the issue and, although they do not have time to discuss it, they usually discuss it with their friends. They usually discuss it with their friends and because it is not a topic.
- 1.3 Young people usually discuss issues, which are not at first, and they are usually in a group of their friends. They begin to discuss it when they are in a group. They usually discuss it with their friends, and they usually discuss it with their friends. They usually discuss it with their friends, and they usually discuss it with their friends.
- 1.4 Young people usually discuss issues, which are not at first, and they are usually in a group of their friends. They begin to discuss it when they are in a group. They usually discuss it with their friends, and they usually discuss it with their friends.
- 1.5 Martha usually discusses the issue of the importance of smoking and she will usually discuss it with her friends. She usually discusses it with her friends, and she usually discusses it with her friends.
