Flashlight Cause & Effect

Directions: Read the story. Then fill in the chart of causes and effects.

Last weekend my friend Karen slept over. We stayed up very late playing with our phones. My phone started losing the signal so with us not having the signal, it was dark too. Karen and I had my dad's flashlight and played outside like normal. Then just now when we thought that nothing bad would ever happen again. In the morning, it was complete darkness. The batteries were dead. Furthermore, there were a few thunderstorms and we lost our electricity. Dad went to get the flashlight so we could have light to work. We ran to my parents' house for power and I had both of my cell phones and charged the batteries. Now I know to take out all of the batteries when you're not using them.

CAUSE	EFFECT
	Mom came in to tell us to go to bed.
It was dark.	
	Flashlight batteries died.
Dad tried to use the flashlight. But it didn't work.
