

Axis College Material

Appendix F

Answer the following two case studies. Each patient's history, referred to as a scenario for further analysis of a service system scenario. Define characteristics of the scenario each patient is suffering from by answering the questions associated with each case study. Answer it your own words.

Case Study 1

Case	Scenario 1: Stroke
Location	Scenario 2: Stroke
Scenario 1: Location	Scenario 2: Location

Scenario 1: Stroke

Scenario 2: Stroke
 1. Scenario 1: Stroke
 2. Scenario 2: Stroke
 3. Scenario 1: Stroke
 4. Scenario 2: Stroke

Case Study

Stroke is a medical emergency involving a disruption of the blood flow to the brain, which can lead to permanent brain damage. Stroke is caused by a blood clot (ischemic stroke) or a bleed in the brain (hemorrhagic stroke). Stroke is a leading cause of death and disability in the United States, and it can significantly impact the quality of life for those affected. Stroke is a medical emergency and it is important to seek medical attention as soon as possible.

Scenario 1: Stroke
 Scenario 2: Stroke

Answer the following questions:

1. What conditions caused the stroke?

There is no certain cause of stroke, although it has been attributed to various causes, including high blood pressure, high cholesterol, and smoking. Stroke is a medical emergency and it is important to seek medical attention as soon as possible.

2. What structural and functional of the service system are affected by stroke?

A stroke can affect the brain's ability to process information, which can lead to a variety of symptoms, including weakness, numbness, and difficulty speaking. Stroke is a medical emergency and it is important to seek medical attention as soon as possible.

3. What are the signs and symptoms of stroke?

Stroke is a medical emergency and it is important to seek medical attention as soon as possible. The signs and symptoms of stroke include weakness, numbness, and difficulty speaking. Stroke is a medical emergency and it is important to seek medical attention as soon as possible.
