

The first box contains a musical staff with a treble clef and seven notes: E, F, G, A, B, C, D. Below the staff are the letters E, F, G, A, B, C, D. Below this are two musical staves, each with two notes. Under the first staff is a dashed line above a drawing of a skirt. Under the second staff is a dashed line above a drawing of a box.

The music at the top of this page tells us all the note names, from E up to D. Use this "secret code" to fill in the missing names of the two common objects at the bottom.

The second box contains a musical staff with a treble clef and eight notes: G, A, B, C, D, E, F, G. Below the staff are the letters G, A, B, C, D, E, F, G. Below this are two musical staves, each with four notes. Under the first staff is a dashed line above a drawing of a bell. Under the second staff is a dashed line above a drawing of a face.

Use the same "secret code" as before to fill in the missing names of these two objects.
