

Teacher:
John L. Smith
Unit:
Computer Science
Level:

Area of Special Education:
Secondary (Grades 6-12) / 17th May 2012 / Lesson of
Microsoft Windows / PC's / week 10
200

By the end of this lesson you should be able to:

1. Type of Working – identify various models and in their applications, applications, representations given packaged to generate content and their file extension formats.
2. GUI – Which window do you use to find and launch applications?
3. GUI – Which window do you use to find and launch applications?

Task / Scenario / Situation	Skills to be used	Expected Results
Scenario 1 (10%) Microsoft Word document Microsoft Word document	Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint 	The student will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint
Scenario 2 (10%) Microsoft Word document	Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint 	Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint
Scenario 3 (10%) Microsoft Word document	Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint 	Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint
Scenario 4 (10%) Microsoft Word document	Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint 	Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint
Scenario 5 (10%) Microsoft Word document	Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint 	Students will be able to identify the following: <ul style="list-style-type: none"> • Microsoft Word • Microsoft Excel • Microsoft PowerPoint
