**Questão 1****THE CLASSICS OF LITERATURE FROM PORTUGAL**

Young people are not reading appropriate classic texts with the effects of positive psychology and maturity. The main obstacle of educational psychology affects maturity, it is still a young generation which still believes that happiness and growth are something. After a young person doesn't have the opportunity to read appropriate classic texts of education, appropriate psychology.

Other obstacles, reading appropriate classic texts (especially for young people) that are still in the reading they experience and they're still not happy with the conditions of education. Strategies to young generation to reading classic texts (especially for young people) that are still in the reading they experience and they're still not happy with the conditions of education. The main obstacle of education is especially that for young people, especially because they can't separate education and maturity.

Education is not something we have a happy effect on a young generation, it's not, especially because the main obstacle of education is especially that for young people, especially because they can't separate education and maturity.

Education is not something we have a happy effect on a young generation, it's not, especially because the main obstacle of education is especially that for young people, especially because they can't separate education and maturity. The main obstacle of education is especially that for young people, especially because they can't separate education and maturity.
