

The diagram illustrates a mechanical system with a central vertical shaft. A gear is mounted at the top of this shaft. To the left, a horizontal shaft is connected to a gear that meshes with the top gear. To the right, another horizontal shaft is connected to a gear that also meshes with the top gear. Below the central shaft, there is a complex arrangement of gears and shafts, including a large gear at the bottom center. The diagram is rendered in a pixelated, grayscale style.
