

Wonderful Webs

Classifying objects with three different attributes and no matching attribute

Spider Maestro has instructed his spider musicians to make interesting new designs on their webs. Now he needs your help to match the designs. Choose the figure in the answer column that matches the figures below. Write the correct letters on the lines. One figure has no partner match. Write X on the line under that figure.

Take a walk with your child around your neighborhood. Begin a discussion about the houses. What (attributes) do they have in common. List them: chimney, roof, garage, door, etc. What makes them different: shatter, color, shape, size. Help your child understand that attributes are features that make objects similar and different.
