Persuasive writing is a type of opinion writing. Your opinion is what you think, feel, or believe about something. When we persuade someone, we want to convince them that our opinion is right. A strong persuasive essay should address a topic that some people may disagree with.

**Opinion:** Tell the reader how you feel about the topic

**E**xample: Give 1-3 examples, with details, that prove why you're right.

**O**pinion: Restate your opinion in a different way, with a feeling!

Write a persuasive essay explaining your opinion. Use additional paper if needed.
