

SPEAKER NOTES

"**Topic: Motivation and Progress: Many students don't continue to study.**"
Speaker: SCLL

The path to success is never long, just starting. I won't know.

Many students (especially those) don't "to study hard and be successful." Because the responsibilities are too, many of them are "overwhelmed," not studying enough. And students are asked to study more. However, it is important to study effectively by applying efficient studying methods, not making use of them, not studying very hard, and continuously.

WHAT IS EFFECTIVE STUDYING?

Effective studying is to study and plan well, progress well, and the best way to do that. It doesn't mean to study all the time and spend more resources.

How do you do a good job? (There are many ways.) In learning from "how" to "change." Read the notes on the page to learn more.

QUESTIONNAIRE

1. I set a positive mood for my studies and activities, a positive time, less distracting places, etc.
 1-0 2-0 3-0 4-0 5-0
2. I have my study activities in blocks and plan a reading list, group discussions.
 1-0 2-0 3-0 4-0 5-0
3. I organize and coordinate notes and assignments, both in a notebook and on a folder on my computer.
 1-0 2-0 3-0 4-0 5-0
4. I never let someone or something distract me while studying.
 1-0 2-0 3-0 4-0 5-0
5. Before each class or study session, I review the assignment and my notes.
 1-0 2-0 3-0 4-0 5-0
6. After each class lecture, as quickly as possible, I review and organize my notes.
