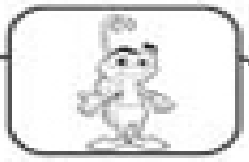
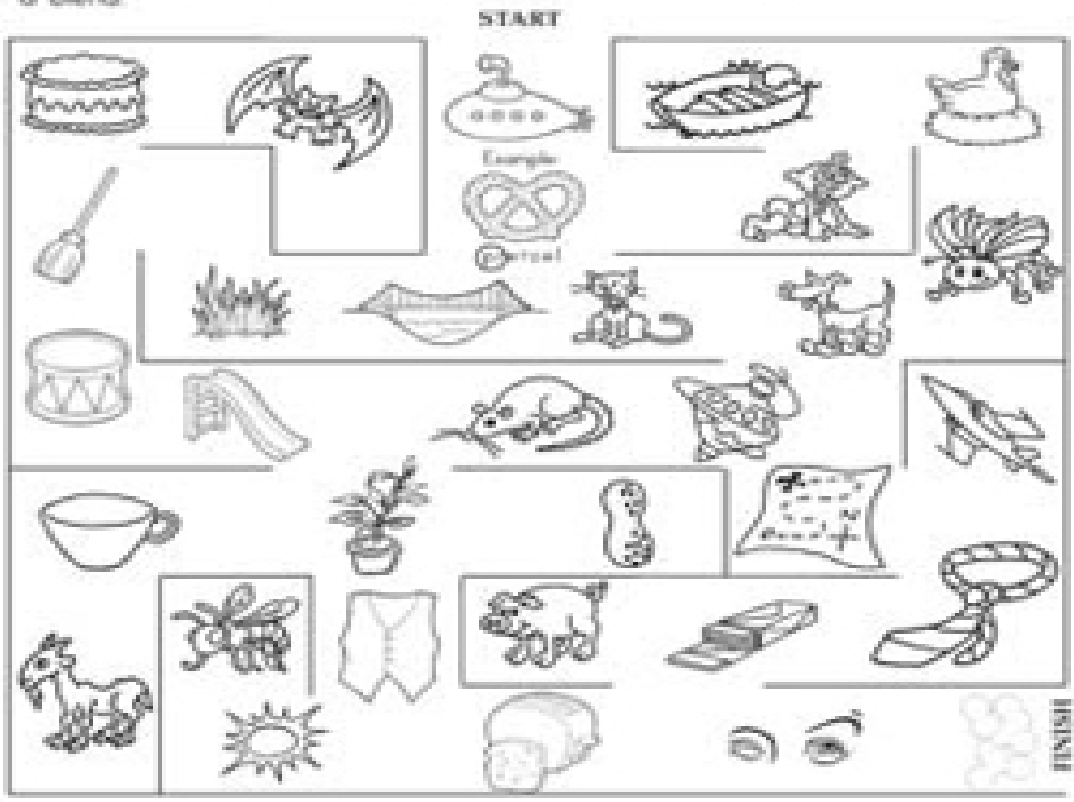
A blend is made up of two or more consonants sounded together so that each consonant is heard.



Amazing Blends!

Identifying initial and final consonant blends

Guide the submarine to the gold coins through the maze of blends. Color only picture words that begin or end with a blend.



Have your child go on a *Blends Scavenger Hunt* by looking around your home for objects that have blends in their names. For example, he might find a *broom*, a *plant*, or a set of *stairs*. Have him list the words on a sheet of paper. Challenge your child to find at least 10 words with blends.
