

**Student Directions**

- Color the organelle, name tag and function tag all the same color.
  - For example, color nucleus, nucleus name tag and nucleus function tag blue; color chloroplast, chloroplast name tag and chloroplast function tag green, etc.
- Cut and paste the organelles to make a cell.
- Cut out the name and function tags. Match them up and then paste around the cell.
- Draw arrows from the tags to the organelle they describe.

controls what enters and leaves the cell	transports materials in the cell
command-center, directs the cell's activities	builds what fills the cell
receives, packages and distributes materials	protects and supports the cell
converts energy to food for the cell	builds proteins for cell functions
storage area for the cell	powerhouse of the cell, produces energy
