

Multiplication as repeated addition

Write how many.

There are groups.

There are in each group.

You can add.

You can multiply.

$$\square + \square + \square = \square$$

$$\square \text{ twos} = \square$$

$$\square \times \square = \square$$

Write how many.

$$2 + 2 + 2 + 2 = \square$$

$$4 \text{ twos} = \square$$

$$\square + \square = \square$$

$$\square \text{ threes} = \square$$

$$\square + \square + \square + \square + \square = \square$$

$$\square \text{ twos} = \square$$

$$3 + 3 = \square$$

$$2 \text{ threes} = \square$$

$$\square + \square + \square + \square = \square$$

$$\square \text{ twos} = \square$$

$$\square + \square + \square = \square$$

$$\square \text{ threes} = \square$$

Write how many.

How many groups?

How many in each group?

Write an addition.

$$\square + \square + \square = \square$$

Write as multiplication.

$$\square \times \square = \square$$

How many groups?

How many in each group?

Write an addition.

$$\square + \square + \square + \square = \square$$

Write as multiplication.

$$\square \times \square = \square$$
