Word Problem

The Smallville Titans hockey team is practicing for their big game. At the beginning of practice the team lined up and took 13 shots on their goalie. At the end of practice they lined up again and took 67 shots.

Write the math equation: $13 + 67 =$

How shots did the Titans take in all? 80

SHOW YOUR WORK:

$$\begin{array}{r} 67 \\ + 13 \\ \hline 80 \\ \hline \hline \end{array}$$
