TOPOGRAPHICS & CONTOUR MAPS

Look at the map below. The height of each piece of land is marked in feet with a wavy line.
Answer the questions below.

1) If you wanted to build a house at the lowest elevation, where would you build it?

2) What is the shortest point on this map?

3) What is the tallest point on this map?

4) What type of landform do you think cities D and E are on?

5) What two cities are the same height?
